

Hello from Dr. Jeff and Lino!

I have the ideal present you can give yourself. It is a full year of meetings (think of them as learning sessions and a chance to ask Dr. Jeff your burning health questions) as well as the access to every course available.

You can find out more information by signing up [HERE](#).

Christmas is coming!

I know we are close because I am doing a webinar in the Holistic Window about how to protect your pet from Christmas hazards if you are not part of that group - hide the chocolate (don't wrap it and leave it under the tree), protect your pets from the power cord to the lights, and no, Sparky does not like alcohol!

In the blogs, I reveal a fascinating one on speaking with departed pets. Check it out!

And, then one on how processed food can damage the liver; in fact, cause cancer.

I will be sending you one more newsletter before Christmas. Enjoy the season and keep your pets healthy!

Dr. Jeff and his assistant Lino

## Blog Highlights

### How to Speak with Your Departed Pet Gil Alan Interview

**Dr. Jeff Grognet**

**How to Speak with Your Departed Pet**

You can also watch the full replay here:
